5. Adequate information relative to the substances which are subject to a restriction in food, obtained by experimental data or theoretical calculation about the level of their specific migration and, where appropriate, purity criteria in accordance with Directives 2008/60/EC, 95/45/EC and 2008/84/EC to enable the user of these materials or articles to comply with the relevant EU provisions or, in their absence, with national provisions applicable to food:

#### **Dual use additives in plastic layer**

The substances used in the PET lid does not contain any dual use additives.

6. Specifications on the use of the material or article, such as:

a) type or types of food with which it is intended to be put in contact:

PET lid can be used as disposable container for all kinds of foodstuffs: dry, moist, acidic, alcoholic and fatty.

b) time and temperature of treatment and storage in contact with the food:

Any contact conditions that include heating up to 70 °C for up to 2 hours, or up to 100 °C for up to 15 minutes.

7. **When a functional barrier is used in a multi-layer material or article, the confirmation that the material or article complies with the requirements of Article 13(2), (3) and (4) or Article 14(2) and (3) of Regulation 10/2011:**

Not applicable

**This declaration will be updated when the composition or the manufacturing process will occur significant changes entailing changes in the migration from the materials or articles or when new data becomes available scientific evidence.**
