GR11 RINSE AID NEUTRAL

KITCHEN 

- Ensures crystal clear and high gloss rinse results.
- Ensures automatic, strip and residue-free clear drying of the dishes.
- For all commercial and household dishwashers, as well as convection ovens or combination steamers using OSMOSIS PLANTS.
- Suitable for ALL water hardnesses.
- Prevents lime-scale deposits.
- Gentle on materials; NO impairment of decors or glazes; no problems with silver, aluminium, plastic, steel.
- No foaming.

Instructions for use / dosage:

0.1-0.5 g (=0.01-0.05 pc per litre of consumption water per rinse cycle.

Unscrew the canister cover and insert the suction lance of the automatic dosing unit.

Best possible results in combination with Cleanet® GR1 Dishwasher Cleaner.

The use of the Cleanet® dosing pump is recommended for exact dosing.

Safety instructions:

Keep out of the reach of children.

For further information, please refer to the technical data sheet and the safety data sheet.

The data sheet for medical Staff can be obtained by Tel.: +49 (551) 6947-0.

For commercial use only.
