OR6 Stainless steel

CLEANING AND CARE

- Professional, colourless lotion based on paraffin oil for cleaning and care of stainless steel and aluminium surfaces.
- Quickly and effectively removes greasy films, fingerprints and light adhesions.
- Ideal for kitchen cleaning (worktops, appliances, extractor hoods, etc.) or maintenance cleaning (lifts, fittings, etc.).
- Creates a care film that protects against moisture and corrosion, prevents re-soiling (fingerprints) and makes the surface look like new.
- Dries quickly, and cleans and maintains without streaks.
- Leaves a pleasant orange scent.

Instructions for use / dosage:

Spray dry cloth sparingly (approx. 1-2 spray strokes per sqm) and wipe or polish surfaces with it. Do not use on hot surfaces! Pre-cleaning is required for heavily soiled surfaces.

Safety instructions:

Keep out of the reach of children. Harmful to aquatic organisms, with long-term effects. Avoid release into the environment. Disposal of the contents/container in accordance with local/regional/national regulations. Contains orange terpenes. May cause allergic reactions. For further information, please refer to the technical data sheet and the safety data sheet. The data sheet for medical staff can be obtained by calling +49 (551) 6947-0. For commercial use only. 24 h emergency call Giftinformationszentrum, Langenbeckstrasse 1, D-55131 Mainz, Germany, Tel.: 06131/19240, mail@giftinfo.uni-mainz.de
